

## Find a Garden Club or Plant Society

**Garden Clubs & Horticulture Societies** are autonomous community organisations that offer their members regular meetings, with guest speakers giving information on a wide range of horticultural topics, plant sales, competition/exhibition tables, bus trips and other garden related activities.

**Plant Societies** usually restrict their area of interest to one plant and provide cultural information at regular meetings.

**Special Interest Groups** floral art, competition bench & garden judging, organic gardening, creative arts, etc

### Note

Not all clubs have a website or email address.
